

ADITHYA JISHA BIJU

B.Tech in Computer Science Engineering with spec. in AIML | Batch 2023–27 | **CHRIST (Deemed to be University), Bengaluru**
adithyajb2020@gmail.com • +91-8714408712 • [linkedin.com/in/adithya-jisha-biju](https://www.linkedin.com/in/adithya-jisha-biju) • github.com/adithyajb07 • Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in full-stack web development and machine learning. Demonstrated ability to build responsive, database-driven web applications using Django, Python, and JavaScript, including Razor-Pay payment gateway integration. Experienced in building ML-based systems for image forensics, NLP-based AI safety, and computer vision.

WORK EXPERIENCE & INTERNSHIPS

HealthEdge, Bengaluru

June 2026 – Present

Software Intern

- Conducting performance and scalability evaluations for frameworks and products developed within the organization.

Genrobotics, Bengaluru

Apr 2026 – May 2026

Software Intern

- Developed an ERP (Enterprise Resource Planning) application to streamline internal business operations across workflows including inventory, employee data, and process tracking.
- Designed and implemented modular backend systems with scalable architecture for multi-department data management.

Soften Technologies, Bengaluru

Apr 2025 – May 2025

Web Developer Intern

- Developed and maintained responsive web applications using modern front-end and back-end technologies.
- Designed and integrated database-driven features using Django ORM and SQLite3 for seamless data management.

PROJECTS

CleanFreshly Web Services | Django, Python, MySQL, Razor-Pay

Apr 2025 – May 2025

- Developed a full-stack e-commerce platform enabling product browsing, cart management, and secure order placement.

Image Authenticity Detection System | Python, Random Forest, ELA

Oct 2025 – Mar 2026

- Developed an ML system to classify images as Authentic, Manipulated, or AI-Generated using a Random Forest Classifier model.

Adversarial Prompt Detection System | Python, NLP, TF-IDF

Dec 2025 – Feb 2026

- Built an NLP-based classifier model to detect adversarial or unethical prompts in order to prevent the misuse of AI systems.

SKILLS

Technical: Python, Java, C, JavaScript, HTML, CSS, Django, MySQL, MongoDB, GitHub

ML / AI: Random Forest, TF-IDF, Error Level Analysis (ELA), OpenCV, NLP, Scikit-learn

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration

Languages: English - Proficient | Malayalam - Native | Hindi - Conversational | Tamil - Beginner

CERTIFICATIONS & TRAINING

- AWS Academy Cloud Foundations** — Amazon Web Services

Jun 2025

- Machine Learning using Python** — Simplilearn

Nov 2024

- Introduction to Internet of Things** — NPTEL, IIT Kharagpur

Nov 2025

CO-CURRICULAR & LEADERSHIP

Algo Royale, Magnovite '25, CHRIST University, Bengaluru

Nov 2025

Event Head

- Led a 6 member team, organised an inter-college event(60+ participants) with a prize pool of ₹25K.

ACHIEVEMENTS & AWARDS

- Nominated for Smart India Hackathon (SIH) 2024 for presenting an innovative financial assistant for UPI apps.
- Registered a copyright under personal name for an original research idea recognised by the Government of India.

EDUCATION

CHRIST (Deemed to be University), Bengaluru

Jul 2023 – May 2027 (Expected)

B.Tech in Computer Science Engineering with spec. in AIML | CGPA: 3.89 / 4.0 (All 6 Semesters)

Progressive English School, Sharjah, UAE | ISC/ICSE

Class XII : Mar 2023 . Class X : Mar 2021

Class XII - 93% | Class X - 91%
